Sanitizer Dispenser Electric Manufactured by Desco Medical India

Specification:-

Capacity: 1.5 liters - Suitable for holding a substantial amount of sanitizer before needing a refill, making it suitable for high-traffic areas.

Material: Plastic - Durable and lightweight material, suitable for both indoor and covered outdoor settings.

Dispensing Mechanism: Automatic sensor-based dispensing - Equipped with an infrared sensor that detects hand movement and dispenses sanitizer without requiring physical contact, promoting hygiene.

Sanitizer Dispenser Electric

Refill Method: Easy refill design - A convenient refill mechanism to minimize spillage and make it easy to replenish the sanitizer.

Mounting Options: Wall-mounted or tabletop - Depending on the model, it could be designed for wall mounting or as a tabletop unit, ensuring flexibility in placement

Hygiene: No-touch operation - Reduces the risk of cross-contamination since users don't need to touch the dispenser to get sanitizer.

Design: Modern and user-friendly design - Designed to blend well with various environments, such as offices, hospitals, schools, etc.

Maintenance: Easy to clean - Smooth plastic surfaces that are easy to wipe down and maintain.

Compatibility: Designed to work with a variety of liquid sanitizers, so you can use a sanitizer of your choice.

We are Manufacturer, Exporters and Suppliers of Sanitizer Dispenser Electric at wholesale competitive prices from India.
